Poisoned / Four Times / Gangstalking

Hi

This will be 4 times now that I'm pretty sure someone either :

Poisoned my food or drinks.

Drugged my food or drinks.

Keep in mind when some one poisons or drugs you it's an extreme state of confusion.

Your system goes into toxic shock.

It's border line insanity.

First time :

The last few month's of 1997 when I was employed at Harper Detroit Diesel in Toronto.

I got really, really sick working at this employer.

Second time :

At Vancouver International Airport in Vancouver, British Columbia, Canada. I was returning to Toronto after finishing a job interview at :

It took me two day's to come around and get out of the airport.

Slept in departures, I think, still not sure.

Missed my flight, no money, a friend paid for my flight back home.

Third time :

When I was working for Hydro One in Sarnia, Ontario, Canada at a transformer station switch yard called the "Scott Steet Tansformer Station".

Someone either poisoned me or drugged me when I had dinner at a local restaurant with the Hydro One crew I was working with after work.

Fourth time :

Someone either poisoned me or drugged me when I had breakfast at a truck stop at Dixie Rd. and Hyway 401 in Mississauga, Ontario, Canada.

Wound up in "emergency" at Trillium Health Care Center" in Mississauga, Ontario, Canada.

These are times that come to mind.

There may be other times that I'm not aware of.

My health started to fail during the last few month's of 1997 while I was still employed at Harper Detroit Diesel in Toronto, Ontario, Canada.

There was a "constructive dismissal" issue in progress aimed at me that I was not aware of at that time.

Extreme confusion.

Toxic shock.

Border line insanity.

I'm not even going to touch on this "directed energy weapon's" thing.

Thing's sure can get "twisted" in the workplace sometime's
